Notification of Rights under FERPA for Postsecondary Institutions

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. (An “eligible student” under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution at any age.) These rights include:

1. The right to inspect and review the student's education records within 45 days after the day the Franklin County Career and Technology Center Practical Nursing Program receives a request for access. A student should submit to the Nurse Administrator a written request that identifies the record(s) the student wishes to inspect. The school official will make arrangements for access and notify the student of the time and place where the records may be inspected.
2. The right to request the amendment of the student’s education records that the student believes is inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

A student who wishes to ask the PNP to amend a record should write the Nurse Administrator, clearly identify the part of the record the student wants changed and specify why it should be changed.

If the PNP decides not to amend the record as requested, the PNP will notify the student in writing of the decision and the student’s right to file a grievance. The procedure in Student Handbook will be followed.

3. The right to provide written consent before the PNP discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The PNP discloses education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official typically includes a person employed by the FCCTC or the PNP in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel); a person serving on the board of trustees, or a student serving on the grievance committee. A school official also may include a volunteer or contractor outside of the FCCTC or PNP who performs an institutional service of function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, or collection agent. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the FCCTC or the PNP.

4. The right to file a complaint with the U.S. Department of Education concerning alleged

failures by the FCCTC or PNP to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Student Privacy Policy Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

FERPA permits the disclosure of PII from students' education records, without consent of the student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the student, § 99.32 of FERPA regulations requires the institution to record the disclosure. Eligible students have a right to inspect and review the record of disclosures. A postsecondary institution may disclose PII from the education records without obtaining prior written consent of the student —
